

NGC Gas Rush Play-off Time

NGC GAS **RUSH**

WINNN or go home!!!!

Yes...calling all students, listen to our recommendation - a dash of memory, a dash of overall knowledge, a teaspoon of luck and a little cram session . This is the ideal recipe for your success in the upcoming rounds of the NGC Gas Rush Competition. The NGC Gas Rush Team thinks that this recipe is what each of the competing teams in the second round advance play off is going to need.

This is because four coveted places are still up for grabs via ten gas rush games that will pit teams against each other in a "win or go home" round of competition designed to select the four best teams. In fact, twenty schools from around the country have been scheduled to have a super showdown at the NIHERST Science Centre at Maloney on April 22nd. The schools were chosen because of their scores which, although not good enough to allow them to qualify automatically for the upcoming qualifying rounds, were good enough to deserve another chance. From the twenty schools four schools will be chosen to move forward with twenty-eight other schools for the qualifying rounds.

Once the thirty-two schools have been decided the qualifying to final rounds will finally kick into high gear with games being televised on Gayelle, The Channel from May 11th.

So to all of you, especially the teams, we look forward to meeting you again on April 22nd with your crews in tow. Play hard, cheer loud, but most importantly have a very good time.

Play-off Contenders

- ASJA Girls' College, Tunapuna
- Bishop's High School, Tobago
