

**THE NATIONAL GAS COMPANY
OF TRINIDAD AND TOBAGO LIMITED**

WHEN MINDFUL SOCIAL
investment
CREATES STAR ATHLETES

While determined young athletes were capturing medals in the recent NGC/National Association of Athletics Administrations of Trinidad and Tobago (NAAA) Championship Series, they were also acquiring a sense of purpose. Athletes and their coaches gauged individual potential and performance. The intense competition renewed their drive to train harder, aim higher, and seize the opportunities that NGC's investment in Sport opens up.

NGC's involvement in Sport and Track & Field begins as early as identifying natural skill in young children. NGC's own *Right On Track Programme* reaches deep into communities to unearth, nurture and inspire budding talent. Our consistent support has been a mainstay of the Primary Schools' Track and Field and Zonal Games in our fence-line communities and beyond.

NGC's investment in NAAA initiatives is producing stellar athletes. Through the *NGC Youth Elite Programme*, high performing athletes are coached for national teams that take part in the CARIFTA and Commonwealth Games, and in international arenas. This year, over a dozen athletes from the Programme, singled out for their exceptional talent, represented Trinidad and Tobago with distinction in regional competitions.

Through our investment in Sport, NGC equips and trains talented athletes, at every stage, to ignite their passion, maximise their potential and confidently pursue their dreams.
