

This is our sound ... the music of T&T.

It started with one man, one drum, in one community. Today, it is the sound that is heard around the world. This sound breathes life into our communities, and our communities keep our culture alive.

We congratulate those bands that placed in the top 16 of the competition, further attesting to the talent that lives on in our culture. NGC is proud to sponsor these community bands, who participated in the 2011 National Single Pan Competition:
