

**Reforestation**  
Our "No net loss" programme replants forests degraded due to NGC's pipeline construction activities.

**Community Engagement**  
We enable facilities development, Natural Gas education programmes, and emergency response training to create first responders for any emergency.

**Contributions & Sponsorships**  
We contribute to education, human and social development, arts and culture activities such as NGC Bocas LitFest, SteelFesTT, The Lydians, NGC Couva Joylanders and NGC La Brea Nightingales.

**Youth Development**  
We invest in cricket, track & field, and recently in the opportunities provided at the Police Youth Clubs at La Brea, Couva, Beetham and Laventille Road.

**Community Economic Development**  
We nurture sustainable communities via training modules which foster job creation.

# Real Energy Comes From Connecting Our Resources

One kind of our Nation's wealth lies below the surface. It's what NGC's business is all about.

Then there is wealth above ground, visible in many triumphs of our citizens. NGC's robust corporate social responsibility strategy helps people live lives rich in opportunity and motivation. Our close ties to numerous projects have given vital support to our Nation's youth, the arts, capacity building via training and education, reforestation, natural gas emergency training and literacy programmes.

Real national growth is multi-faceted. It's not just about economic—but also societal—development. We are proud when a new steelband centre energizes a community; we feel joy for every young person whose future is transformed by our helping hand.
