UWI Development and Endowment Fund Award Ceremony

## The National Gas Company of Trinidad and Tobago Limited (NGC) contributes to the Trevor Boopsingh Endowment Fund

Trinidad and Tobago owes its success as one of the world's leading energy producers and exporters to the work of dedicated, pioneering individuals who led the way in the evolution of our energy industry, such as the late Mr. Trevor Boopsingh.

The Chaconia Medalist and energy industry stalwart was honoured on March 5th 2015, when the University of the West Indies launched the Trevor Boopsingh Endowment Fund to provide scholarships for students in the Petroleum Engineering Programme. As part of NGC's commitment to invest in education, the Company will donate \$1 million to this Fund over a period of five years.

**Our commitment to education is about investing in and nurturing the potential of the nation's youth for their evolution into the distinguished leaders of our future.**

The **Energy** of Human Potential
